Kids will have a great time learning more about a career with United Airlines and other careers in aviation.

**Preparation**
Print out the career coloring book pages and the career images to tape up on the wall.

**Step 1 (5 minutes)**
Introduce the activity students will be doing today.

**Step 2 (15 minutes)**
Distribute the career coloring book pages to the students. You may either ask them to pick one based on what they think is the most interesting or else randomly assign one. Have them color in their pictures using crayons/markers.

- Compliment the students on their efforts.
- Ask questions about the role of the person they are coloring:
  - What do you think this person does on the job?
  - Would you want to have this job? Why/why not?

**Step 3 (15 minutes)**
After the students has finished, start a discussion about the roles and people in aviation.

- Hold up one coloring page picture (example: pilot); ask the students what they think this person does as a job.
As you go through each role and ask the students what they think the job is, tape up the printed career images for each of the roles and inform the students about the duties of that job:

### Career roles

<table>
<thead>
<tr>
<th>Role</th>
<th>Duties</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Pilot</strong></td>
<td>They safely fly the plane. Typically a flight has two pilots: the captain, who is in charge, and the co-pilot, who is called the first officer.</td>
</tr>
<tr>
<td><strong>Flight attendant</strong></td>
<td>They are responsible for the safety of people on the plane, inform passengers about safety in flight, serve meals/snacks and help passengers feel comfortable during the flight.</td>
</tr>
<tr>
<td><strong>Ramp service agent</strong></td>
<td>The person who ensures that your luggage arrives with you by loading luggage on the right plane and unloading luggage when the plane arrives.</td>
</tr>
<tr>
<td><strong>Air traffic controller</strong></td>
<td>The person who provides help to pilots to make sure planes take off, fly and land safely, keeping each plane a safe distance from one another.</td>
</tr>
<tr>
<td><strong>Aircraft mechanic</strong></td>
<td>They repair and maintain the aircraft to ensure it is safe to fly.</td>
</tr>
</tbody>
</table>

**Step 4 (5 minutes)**

Ask questions about what students have learned:

- What do you think might be the hardest part about the job?
- What do you think might be the most exciting part about the job?

Thank the students for a GREAT job!

Let them know how much you enjoyed being with them.
