Economy, Quality, Reliability and Opportunity

S E R I E S
ecco

The solution that combines
**quality, savings and
performance for
printers and MFPs.**

Series Ecco is the cost-effective and environmentally friendly solution that guarantees good results with excellent quality and service. Each one of our Series Ecco products goes through a **reconditioning process, carried out by our group of highly trained** and specialized engineers, who make sure to carefully select, test, refurbish and retest each piece of equipment to guarantee an excellent and reliable performance.

**With SERIES ECCO
you will get the best
alternative of
reconditioned
printers and MFPs,
obtaining cost
savings within your
organization.**

Sustainability, reliability and results

Today many companies have among their main challenges to optimize their technological investment, maximizing their budget and at the same time reducing their environmental impact.

How to achieve these objectives while maintaining quality, high performance, and efficiency in their workflows?

Benefits

Savings

Significantly lower costs to comparable new equipment.

Flexibility

Option to implement mixed fleets of new and reconditioned equipment, according to the customer's budget and needs.

Quality

Incorporates the best selection of parts, the latest software and hardware enhancements, and is processed under strict quality requirements.

Service

We are committed in providing the same level of technical, parts and supply support that we provide for our new equipment.

Reliability

We only recondition models that have a proven success in the marketplace.

An ideal alternative for your business

When you think about equipping your organization, you want your employees to have the right tools and technology to work productively and at the lowest cost. Series Ecco **provides you with the right capabilities for your workgroups, giving you better budget advantage.**

In cases where you don't need Ricoh's most advanced technology, you can opt for an equally reliable but even more affordable option with the Series Ecco solution. By choosing Series Ecco for certain areas of your organization, you free up a valuable portion of your budget to invest in new equipment where it is really needed. Replacing obsolete equipment with a Series Ecco **gives your organization a competitive advantage to achieve your goals at a fraction of the cost.**

Our step-by-step **process**

Disassembly and cleaning

Disassembly and cleaning of complete structure, inspection, testing, repair and/or replacement of necessary parts, reconditioning and firmware upgrade.

Rebuild and retest

Device is reassembled and tested.
Inspectors perform final functional test.

Quality control

Our ISO9001/14001 certified processes ensure that the equipment is conditioned based on quality controls. Our trained technicians strictly follow each process to achieve the necessary quality in each product.

Once the process is completed, the product is packaged according to our new equipment standards and shipped.

Environmental support

The best way to show your employees, investors and customers that your organization is committed to sustainable business practices is to choose Series Ecco. Recirculating resources is a far greater ecological contribution to your company than simply recycling, as reuse provides a higher net value of resources and a higher return on the energy used in the initial manufacture.

Committed to the

SUSTAINABLE DEVELOPMENT GOALS

By retrofitting equipment in sustainably designed facilities, we contribute to reducing the overall environmental impact of our products.

Our certifications
